COVID-19 Survey Summary – March 27th, 2020

Today, INNOVATIVE is releasing the second survey in our ongoing project to understand public opinion as the COVID-19 situation evolves in Canada.

The national survey conducted between March 16 and March 18, 2020 in both English and French has a weighted sample size of 2,000 respondents across Canada. A full methodology is available in the appendix.

The survey looked in-depth at a number of topics. Today's release focuses on 4 key questions:

1. Are Canadians' changing their behaviour – and, if so, what are they doing?
2. How is the situation affecting views of the economy and personal finances?
3. How are Canadians feeling the impacts on their health, finances, and well-being?
4. How is approval of the government's response changing over time?

Note: *This survey looked in-depth at a number of topics, and we will be releasing more results in the coming weeks. This release focuses on a few key topics, but the full questionnaire is provided as an appendix.*

Behaviour Change:

A majority (56%) of Canadians report changing their behaviour a great deal in response to the COVID-19 outbreak. This is a 24 percentage point increase in one week. However, many Canadians are still getting together occasionally with friends and family. Young Canadians are still the most social, but large majorities of them report adopting safer habits like hand-washing and keeping distance.

Behavioural Changes: A significant drop from 34% showing little or no behaviour change last week to just 15% this week

How much have you changed your day-to-day behaviour in order to reduce the chance you will get COVID-19 or pass it to others?

[asked of all respondents; n=2,000]

Behavioural Changes: Although still higher than older age groups, just 1-in-5 (22%) of those under 35 report little or no change

How much have you changed your day-to-day behaviour in order to reduce the chance you will get COVID-19 or pass it to others?

BY Age, gender, and region

[asked of all respondents; n=2,000]

■ A great deal ■ Quite a bit ■ Very little ■ Not at all ■ Don't know

Behavioural Changes – Trend by age: Across all age groups, the number who aren't changing their behaviour dropped by about half

How much have you changed your day-to-day behaviour in order to reduce the chance you will get COVID-19 or pass it to others?

BY Age

[asked of all respondents; n=2,000]

■ A great deal ■ Quite a bit ■ Very little ■ Not at all ■ Don't know

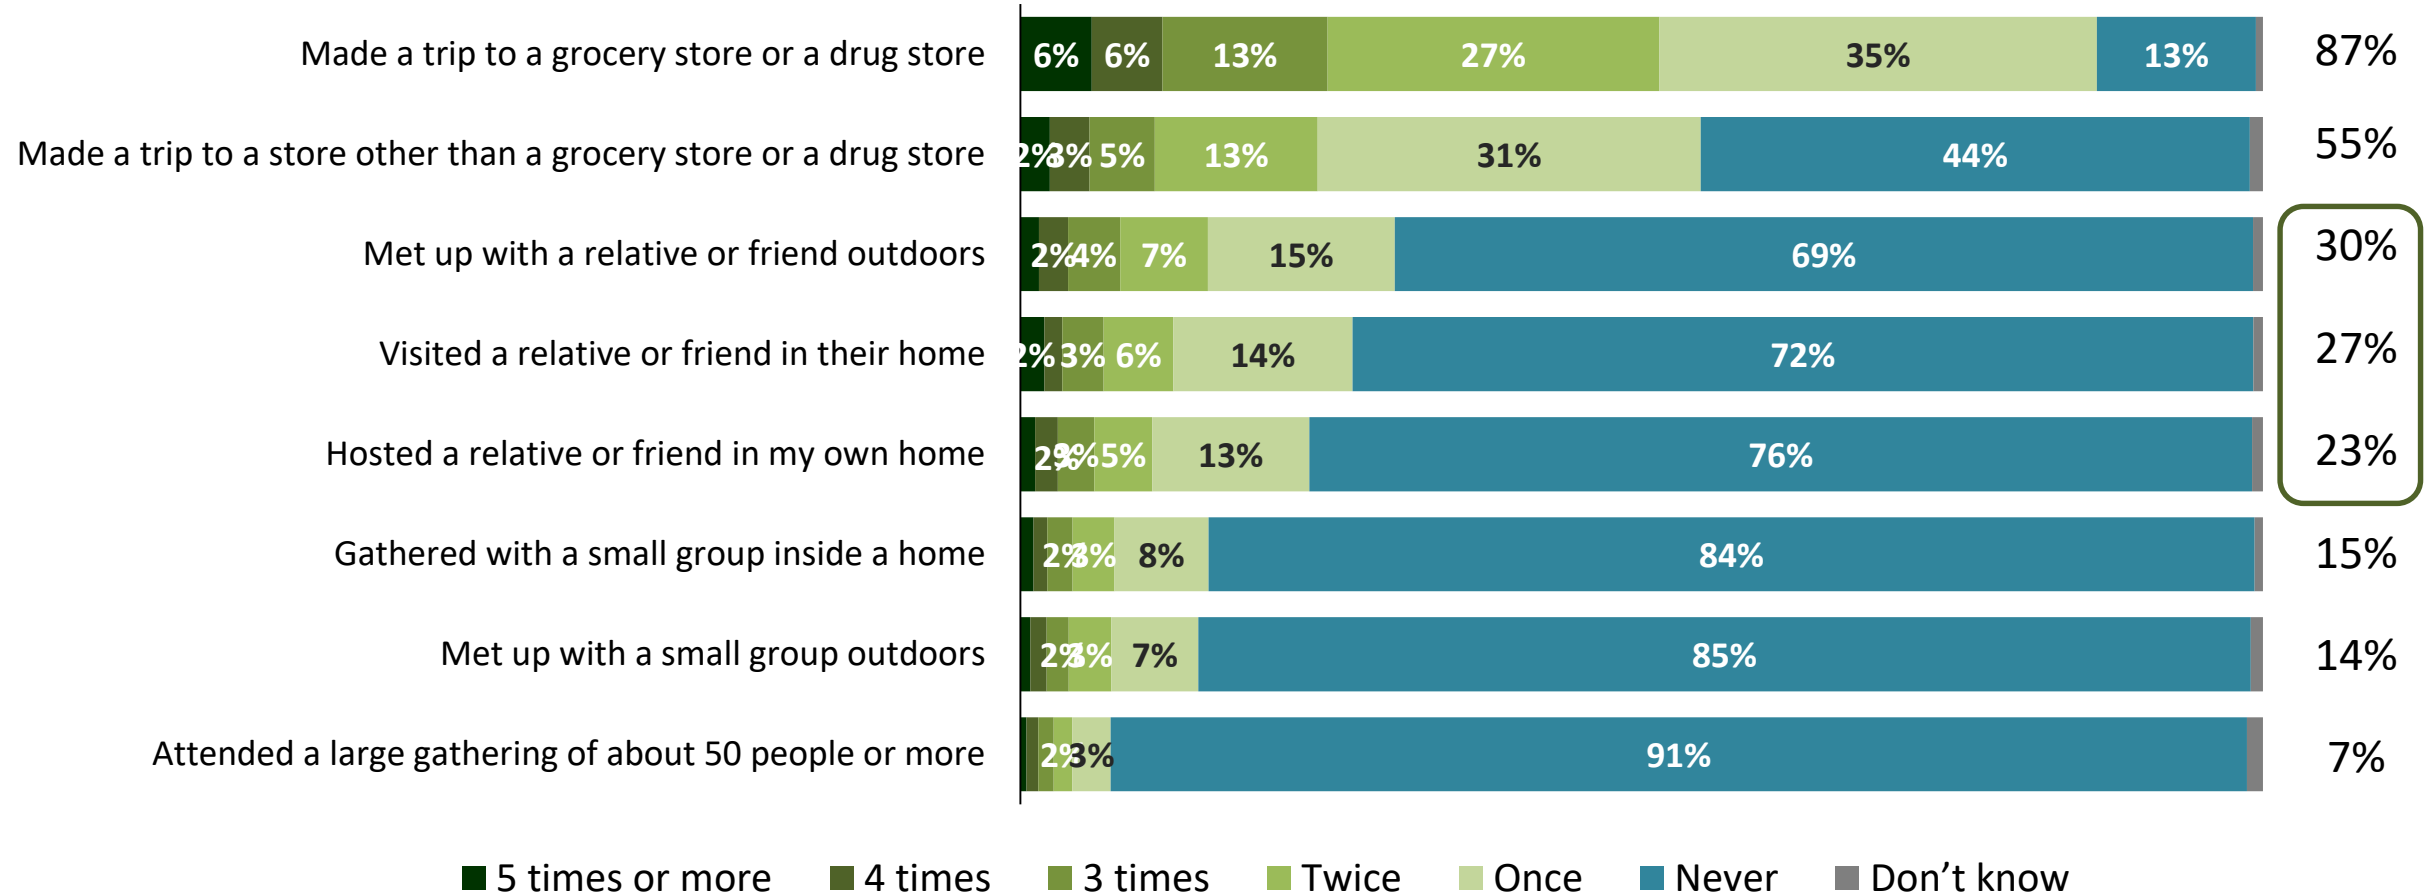

Physical Distancing: Although most are not, some Canadians are still getting together to visit with friends and relatives

Over the past 7 days, how often have you done each of the following?

[asked of all respondents, n=2,000]

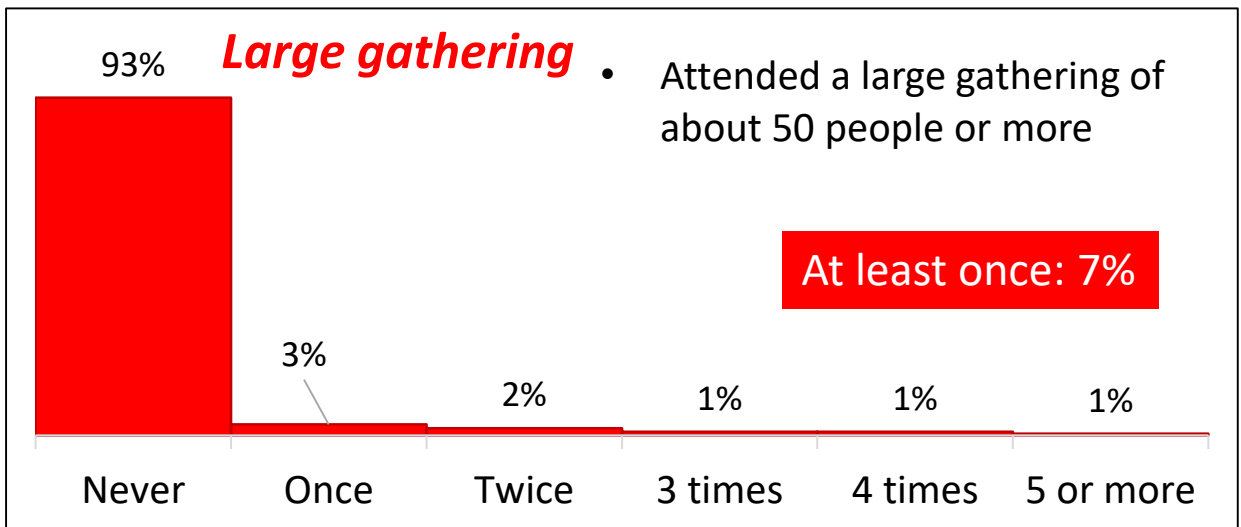

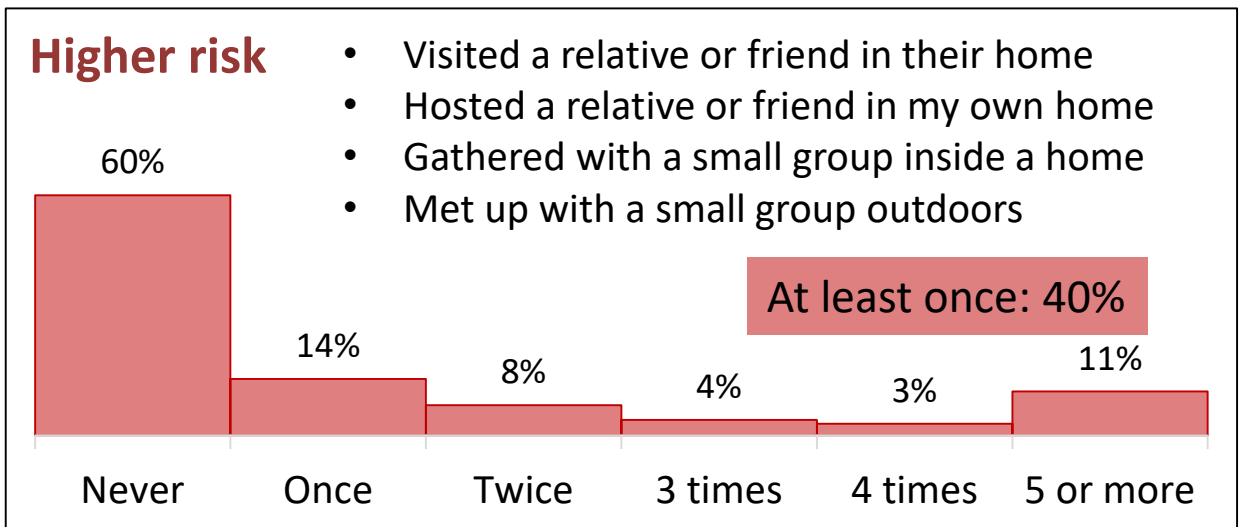

% At least once

Physical Distancing: 40% of Canadians got together with a friend/relative in someone's home, or with a group at least once last week

Over the past 7 days, how often have you done each of the following?
[NOTE: Each behaviour asked separately, results for groups are summed; all respondents, n=2,000]

Physical Distancing: Those who say they made little/no behaviour change last week are much more likely to engage in riskier activities

Over the past 7 days, how often have you done each of the following?

BY Self-reported behaviour change

[all respondents, n=1,200]

Self-reported behaviour change

**Very little/
Not at all**

Lowest risk

Personal Finances

Almost half (47%) of Canadians report their household has a negative financial impact from COVID-19. The same number (47%) now expect Canada is headed into a severe recession. This is the highest ever in our tracking and a 37-point jump from 11% just one month ago. Despite fears for the economy overall and the direct impact of COVID-19, most Canadians remain confident in their personal finances.

Direct Impacts: 4-in-10 (39%) respondents say they or someone in their household has either been laid off or has reduced hours at work

Have you, or has anyone in your household, experienced any of the following impacts on work as a result of the COVID-19 outbreak?

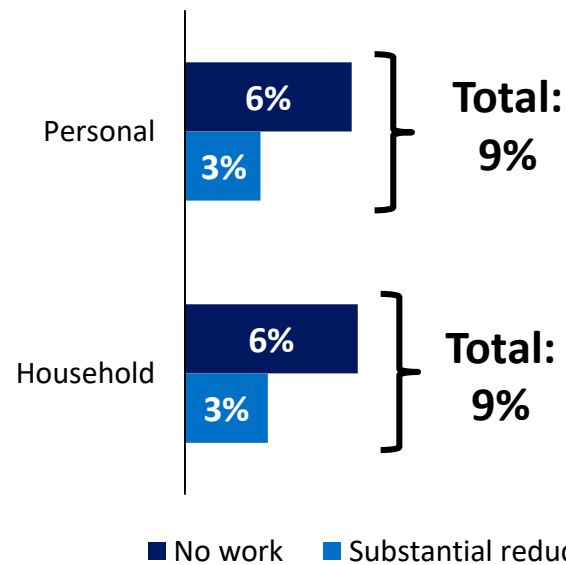

[all respondents, n=2,000]

Employment

In total, 39% of respondents say either they or someone in their household has had their job impacted.

Contract Work

In total, 16% of respondents say either they or someone in their household has had their contract work impacted.

Businesses

In total, 20% of respondents say either they or someone in their household has had their business impacted.

In total, 47% of respondents report a negative financial impact on their themselves or their household.

Note: The question allowed for multiple responses. Where respondents selected multiple, only their most extreme response is shown.

Recession Tracking: Belief that the Canadian economy is moving towards a recession is higher than it was in 2008

Do you feel the Canadian economy is moving into a period of recession or into a period of growth?

[all respondents, n=2,000]

NET Moving toward recession

Month to Month Change

Nearly 8-in-10 (79%) respondents believe Canada is moving into a recession, higher than at any point in the 2008-09 financial crisis.

Note: NET RECESSION= RECESSION (severe, mild) minus GROWTH (moderate, strong), "Neither/DK" not included.

Severe Recession Tracking: Nearly half of all respondents (48%) feel that Canada is moving into a severe recession

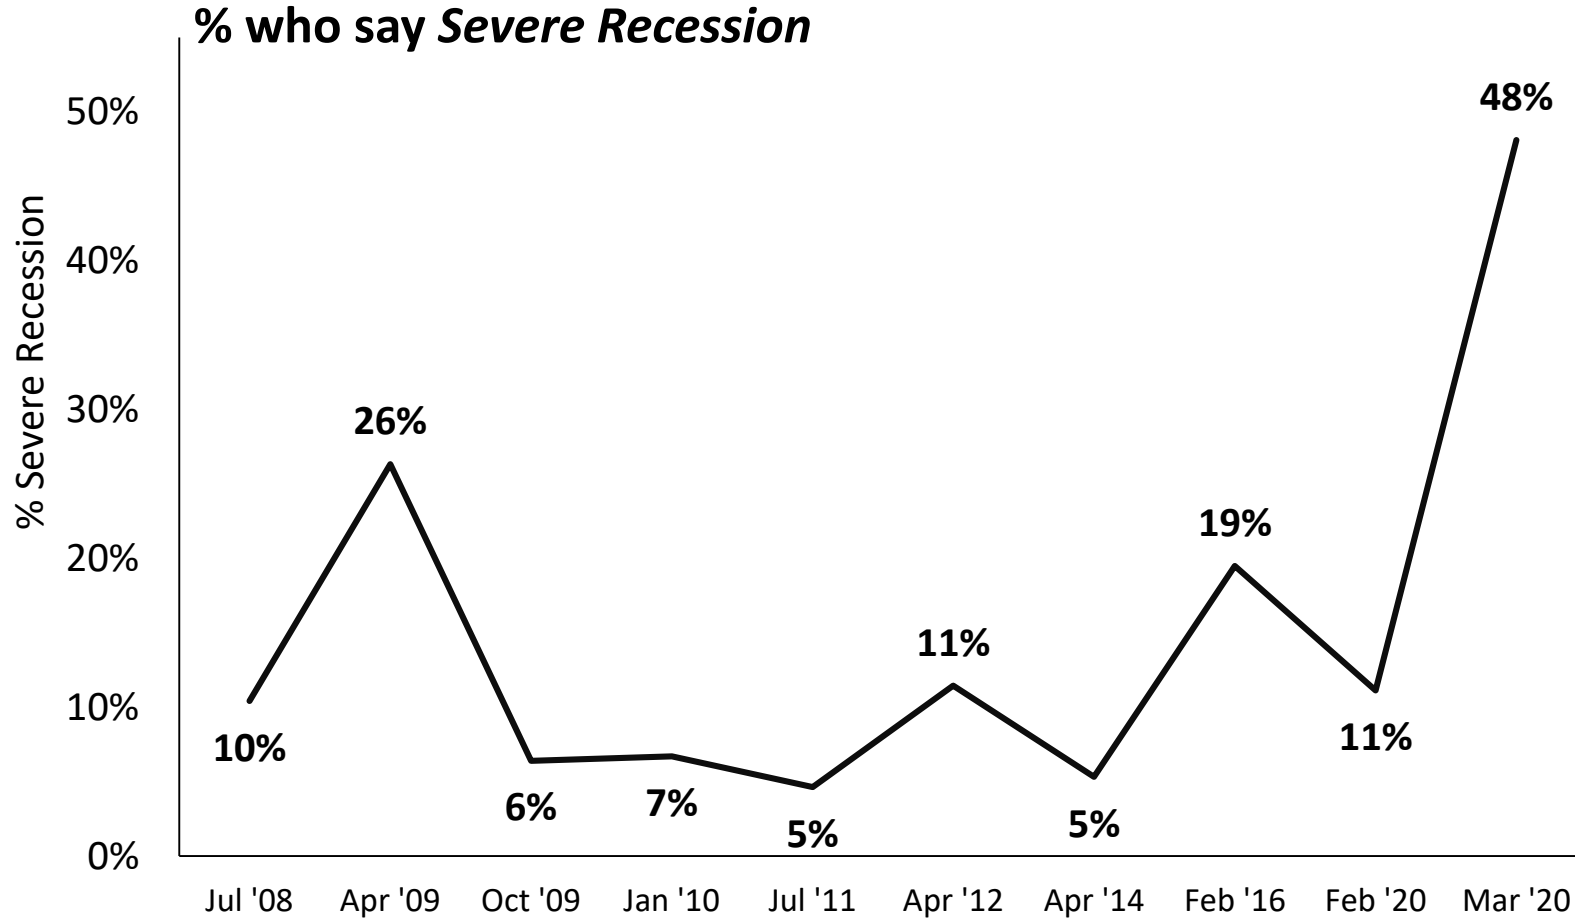

Do you feel the Canadian economy is moving into a period of recession or into a period of growth?

[% who say "Severe Recession"]

[all respondents, n=2,000]

Month to Month Change

Almost half of all respondents (48%) feel Canada is moving into a severe recession. The highest previously recorded figure, in the financial crisis, was 26%.

Note: NET RECESSION= RECESSION (severe, mild) minus GROWTH (moderate, strong), "Neither/DK" not included.

Confidence Tracking: Respondents' confidence in their household finances slips, but is only down four points since February

Generally speaking, how secure do you feel about your household's current financial situation?

[all respondents, n=2,000]

Respondents' confidence in their own household finances has continued to drop since April 2012, but has only fallen four additional points since February.

Note: Showing "very confident" + "somewhat confident"

Job Prospect Tracking: Among employed respondents, a majority agree they could get another job if they wanted to

Net agreement: I feel confident that I could get another job somewhere else if I wanted to
 [asked of those who are currently employed; n=994]

NET Agreement

Month to Month Change

While unemployment has jumped in Canada over the last few weeks, among respondents who still have a job, the majority agree that they could find another job if they wanted to.

Note: NET AGREEMENT= AGREE (strongly, somewhat) minus DISAGREE (somewhat, strongly), "Neither/DK" not included

Negative Impacts:

4-in-10 Canadians feel a significant negative impact due to COVID-19 on their quality of life. This share is expected to rise to 50% in two months time. Health care workers expect a larger negative impact on their physical health than other Canadians—now and in the near future.

COVID Negative Impacts Present and Future: Canadians perceive biggest negative impact on quality of life—now and in the future

Q The COVID-19 outbreak has resulted in major changes [...]. Thinking about these changes as a whole, how much have they **negatively impacted** you personally in each of the following areas?

Experts are unsure how long the current social distancing and economic changes necessitated by COVID-19 will last. Assuming they last for at least another 2 months, how **negative would you expect the impact** to be in each of the following areas in 2 months time?

Please answer from 0 to 10 where 0 means “No negative impact” and 10 means “Extremely negative”. [asked of all respondents, n=1,200]

Physical Health

Mental health

Household Finances

Overall Quality of Life

Perceived impact so far

Expected impact in 2 months time

No/minimal impact (0-3)

Significant impact (7-10)

No/minimal impact (0-3)

Significant impact (7-10)

No/minimal impact (0-3)

Significant impact (7-10)

No/minimal impact (0-3)

Significant impact (7-10)

Negative Impacts on Physical Health for Different Groups: Health care workers expect greatest impact on physical health in 2 months

NOTE: Percentages reflect those reporting significant negative impact (7-10). The category “affected by income loss” includes respondents who have lost their work, had to close their businesses, or experienced significant reduction in hours.

COVID Negative Impacts on Mental Health: Those affected by income loss expect greatest impact on mental health in 2 months

NOTE: Percentages reflect those reporting significant negative impact (7-10). The category “affected by income loss” includes respondents who have lost their work, had to close their businesses, or experienced significant reduction in hours.

COVID Negative Impacts on Household Finances: Those affected by income loss expect greatest impact on household finances in 2 months

NOTE: Percentages reflect those reporting significant negative impact (7-10). The category “affected by income loss” includes respondents who have lost their work, had to close their businesses, or experienced significant reduction in hours.

COVID Negative Impacts on Quality of Life: Those affected by income loss expect greatest impact on quality of life in 2 months

NOTE: Percentages reflect those reporting significant negative impact (7-10). The category “affected by income loss” includes respondents who have lost their work, had to close their businesses, or experienced significant reduction in hours.

Government Approval:

Approval of the government response is up from last week for both the Provinces and the Federal government. Those who don't approve of the response so far mainly want it to go even further than it already has.

Govt Approval: Federal govt approval up significantly from 50% to 59% in just a week, although still below that of the provincial govts overall

Provincial government approval

Do you approve or disapprove of the way the [PROV] Government has handled the outbreak of COVID-19?
BY Impact to employees
[asked of all respondents; n=2,000]

Approve

Approve Δ

+6%

Federal government approval

Now thinking about the federal government, do you approve or disapprove of the way the federal government has handled the outbreak of COVID-19?
BY Impact to employees
[asked of all respondents; n=2,000]

Changes in blue are significantly different from 0 at a 90% confidence level.

Québec was least likely to approve of the federal govt a week ago. Approval is up significantly, now on par with the national average

Federal government approval

Now thinking about the federal government, do you approve or disapprove of the way the federal government has handled the outbreak of COVID-19?

BY Region

[asked of all respondents; n=2,000]

Note: Changes of approval rating in red are significantly different from 0 at a 95% confidence level.

Changes in blue are significantly different from 0 at a 90% confidence level.

Employees who have been laid off or had hours reduced approve of provincial and federal response just as much as everyone else

■ Strongly approve
 ■ Somewhat approve
 ■ Neither approve nor disapprove
■ Somewhat disapprove
 ■ Strongly disapprove
 ■ Don't know

Note: Differences in approval rating in red are significantly different from 0 at a 95% confidence level. Differences in blue are significantly different from 0 at a 90% confidence level.

About half say the government has responded the right amount. Most of those who disapprove of the response want to see more done. ³¹

Would you say that in response to the COVID-19 outbreak so far governments have done too much, too little, or the right amount?

BY Provincial government approval and Federal government approval

[asked of all respondents; n=2,000]

■ Far too much
 ■ Somewhat too much
 ■ The right amount
 ■ Somewhat too little
 ■ Far too little
 ■ Don't know

Appendix: Methodology & Questionnaire

Survey Methodology

These are the results of an online survey conducted between March 24th and 26th, 2020.

Method: This online survey was conducted using INNOVATIVE's Canada 20/20 national research panel with additional respondents from Lucid, a leading provider of online sample. Each survey is administered to a series of randomly selected samples from the panel and weighted to ensure that the overall sample's composition reflects that of the actual Canadian population according to Census data to provide results that are intended to approximate a probability sample. This survey includes oversamples of BC, Alberta, Ontario, and Quebec to take a deeper look at these provinces.

Sample Size: n=2,411 general population, 18 years or older. The results are weighted to n=2,000 based on Census data from Statistics Canada.

Field Dates: March 24th to March 26th, 2020.

Weighting: Results for Canada are weighted by age, gender, and region to ensure that the overall sample's composition reflects that of the actual population according to Census data; in order to provide results that are intended to approximate a probability sample. Weighted and unweighted frequencies are reported in the table.

Margin of Error: This is a representative sample. However, since the online survey was not a random probability based sample, a margin of error cannot be calculated. Statements about margins of sampling error or population estimates do not apply to most online panels.

Note: Graphs may not always total 100% due to rounding values rather than any error in data. Sums are added before rounding numbers.

This survey looked in-depth at a number of topics, and we will be releasing more results in the coming weeks. This release focuses on a few key topics, but the full questionnaire is provided as an appendix.

	Unweighted (n)	Unweighted (%)	Weighted (n)	Weighted (%)

The next questions are about your health. By health, we mean not only the absence of disease or injury but also physical, mental and social well-being.

4. In general, would you say your health is... ?

Excellent
Very good
Good
Fair
Poor
Don't know

COVID-19 Questionnaire cont.

5. Using a scale of 0 to 10, where 0 means "Very dissatisfied" and 10 means "Very satisfied", how do you feel about your life as a whole right now?

6. In general, would you say your mental health is... ?

Excellent
Very good
Good
Fair
Poor
Don't know

7. Thinking about the amount of stress in your life, would you say that most of your days are...?

Not at all stressful
Not very stressful
A bit stressful
Quite a bit stressful
Extremely stressful
Don't know

8. How would you describe your sense of belonging to your local community? Would you say it is...?

Very strong
Somewhat strong
Somewhat weak
Very weak
Don't know

9. Do you agree or disagree with the following statement? *I'm confident that if I had a serious medical problem I'd be able to get the healthcare services I need.*

Strongly agree
Somewhat agree
Neither agree nor disagree
Somewhat disagree
Strongly disagree
Don't know

10. Do you have a health condition that leaves you more vulnerable than most people to respiratory diseases such as pneumonia or the flu?

Yes
No

11. In an average week, how often do you have contact with anyone who has a health condition that leaves them more vulnerable than most people to respiratory diseases such as pneumonia or the flu?

5 times or more
4 times
3 times
Twice
Once
Never
Don't know

COVID-19 Questionnaire cont.

12. Do you or any members of your immediate family work in healthcare?

- Yes, I do
- Yes, members of my immediate family do
- No [MUTUALLY EXCLUSIVE]
- Don't know [MUTUALLY EXCLUSIVE]
- Prefer not to say [MUTUALLY EXCLUSIVE]

13. Do you feel the Canadian economy is moving into a period of recession or into a period of growth?

- Severe recession
- Mild recession
- Neither recession nor growth
- Moderate growth
- Strong growth
- Don't know

14. Generally speaking, how confident and secure do you feel about your household's current financial situation?

- Very confident
- Somewhat confident
- Not very confident
- Not confident at all
- Don't know

15. Which of the following best describes your current job status?

- Working on your own business within your home
- Working on your own business outside of your home
- Working on an employer's business full-time
- Working on an employer's business part-time
- Currently unemployed
- Student
- Retired
- Homemaker
- Don't know

16. Do you agree or disagree with the following statement? *I feel confident that I could get another job somewhere else if I wanted to.*

- Strongly agree
- Somewhat agree
- Neither agree nor disagree
- Somewhat disagree
- Strongly disagree
- Don't know

17. Which of the following best describes the impact the COVID-19 outbreak has had on your working arrangements?

- I have always worked from home
- I have switched to working from home all of the time
- I have switched to working from home some of the time
- I am still working outside my home at my usual place of business
- My work is currently closed/not operating
- Don't know

COVID-19 Questionnaire cont.

18. Which of the following best describes the impact the COVID-19 outbreak has had on your study arrangements?

- I have always taken classes from home
- I have switched to taking classes from home all of the time
- I have switched to taking classes from home some of the time
- I am still going to campus to take classes
- My school is currently closed/not operating
- Don't know

19. Have you, or has anyone in your household, experienced any of the following impacts on work as a result of the COVID-19 outbreak.

- 19a. Been laid off**
- 19b. Had hours/shifts reduced**
- 19c. Work as a contractor and am doing no work**
- 19d. Work as a contractor and have seen a substantial reduction in work**
- 19e. Operate a business and have seen substantial reduction in sales**
- 19f. Operate a business that has had to temporarily close**
- 19g. Operate a business that has had to permanently close**

- Me personally
- A member of my household
- Neither
- Don't know

20. How closely have you been following news about COVID-19 which is also known as the novel coronavirus?

- Very closely
- Somewhat closely
- Not very closely
- Not at all
- Don't know

21. How concerned are you personally about each of the following?

21a. That you yourself will contract COVID-19.

21b. That a vulnerable friend or a relative will contract COVID-19.

- Very concerned
- Somewhat concerned
- Not very concerned
- Not at all concerned
- Don't know

22. How much have you changed your day-to-day behaviour in order to reduce the chance you will get COVID-19 or pass it to others?

- Not at all
- Very little
- Quite a bit
- A great deal
- Don't know

COVID-19 Questionnaire cont.

23. Have you or someone in your household travelled outside of Canada in the last 14 days?

- Yes
- No
- Don't know

24. Are you currently in self-isolation or self-quarantine at home as part of the effort to reduce the spread of COVID-19?

- Yes
- No
- Don't know

25. For which of the following reason(s) are you currently in self-isolation or self-quarantine? Please select all that apply.

- I or someone in my household travelled outside of Canada in the last 14 days
- I or someone in my household currently have symptoms that match some symptoms of COVID-19
- Another member of my household has symptoms that match symptoms of COVID-19
- Another reason
- Don't know

26. And specifically, how often are you doing each of the following things to reduce the chance you will get COVID-19 or pass it to others?

26a. Washing my hands more frequently

26b. Avoiding touching my face as much as possible

26c. Keeping a distance of 2 metres from others when I am out of my house

- All the time
- Most of the time
- Occasionally
- Rarely
- Never
- Don't know

27. In the past few weeks, how often have you discussed COVID-19 with your family or friends?

- Not at all
- Once or twice
- A few times
- Many times
- Don't know

COVID-19 Questionnaire cont.

28. Do you agree or disagree with each of the following statements?

28a. There really isn't very much people can do to avoid getting COVID-19.

28b. Social distancing is less important for me because I'm not in a high-risk group for COVID-19

28c. I am worried that unless I am careful, I could easily transmit COVID-19 to a vulnerable friend or relative

Strongly agree

Somewhat agree
